All-
We should find a time next week to meet down there and discuss the possibilities on-site. I'm available Monday afternoon, Wednesday at 11am, Thursday after 4pm and Friday afternoon.
Alan

Alan, what i'm mainly interested in is the look from Northbound Harbor Blvd. as traffic approaches 6th Street.

I assume Southbound Harbor at 6th St. will not change.

Alan,

Do you have plans for the intersection of 6th and Harbor Blvd.? Warren want to see a 500 foot radius as it will be helpful to plan out the gateway project. He is wearing his engineer hat.

Thanks.

> As you can see from the attached drawing/plan the Port is not going to touch the intersection of 6th and Harbor during the Harbor Blvd Roadway Improvement Plan which is in construction right now. We have no plans for the intersection of 6th and Harbor BUT this is the e-mail that I sent Lorena a little while ago that may help explain:
>
> *Hi Lorena,*
>
> *Yes – that is correct and 6th Street will be blocked off (or limited) to traffic once the "Town Square" is designed and created (design is happening now and it should be in construction within a year or so?). I have seen some preliminary plans for the Town Square and they have probably changed 10 times since I last saw them and there was a cul-de-sac only at 6th street in front of the Maritime Museum with limited parking. The Town Square is the area in Front of the Maritime Museum and to the South. I'm told that the developers of the San Pedro Public Market are working on the design of the Town Square and that they will be having a public meeting within the next 60 days or so to show what that may look like – you may want to wait? Or you can ask Alan Johnson to share that design with you (he should have it?) and perhaps include him in the meetings so that whatever the PBID designs it will complement what is created on the waterside? I suggest including Alan (included in this e-mail) in this discussion??*

If you get that layout of the 6th and Harbor can I get a copy? If you're gone can you get to me?

Thanks
